

Internal Halyard

Our standard selection of internal halyard flagpoles are available in mounted heights from 20 ft. to 80 ft. with a ground set foundation. For further assistance please refer to the Contact Us page for questions.

Internal Halyard Standard Flagpoles, Ground Set:

- Material:** Alloy 6063-T6 aluminum tubing with uniform conical taper
- Finish:** Directional sanded satin ground or choose from six other powder coat paint or anodized finishes
- Truck:** Single or double revolving with stainless steel bearing concealed inside a cylindrical hood
- Halyard:** Stainless steel aircraft cable with two, chrome Plated, bronze swivel snap hooks, plastic covered counterweight and beaded sling
- Collar:** Spun aluminum flash collar finished to match pole
- Foundation:** Ground Set foundation - sleeve fabricated from 16-gauge galvanized corrugated steel tube with a 3/16-inch thick steel base plate and support plate, 3/4-inch diameter x 18 inches long ground spike and steel centering wedges.

Select one of the following as a standard option:

- Winch:** A winch is provided inside the pole at 4'-6" above ground level to raise and lower the flag by use of a removable hand crank. The winch contains an automatic brake system to permit locking of the flag in any position.
- Cam Cleat:** Manually operated cam cleat includes a flush-access door with cylinder lock and continuous piano hinge

Custom order options:

Foundations: Shoe Base foundation - Cast aluminum shoe base with four galvanized steel anchor bolts and galvanized steel hex nuts, washers and lock washers.

Finishes: Choose from fourteen standard or custom powder paint colors or anodized finishes, or specify your own color.
