DESIGNER'S NOTES

1. Partition-mounted units B-3471, B-3571 with one side flush to partition of Barrier-Free compartment have toilet tissue on left when facing unit.

2. Recessed units B-3474, B-3574 and surface-mounted units B-3479, B-3579 have toilet tissue on right when facing unit.

3. Rear edge of partition cutout should be 20 1/2" (520mm) from back wall. This will locate toilet tissue within 12" (305mm) of front of a standard

toilet that projects 30" (760mm) from back wall.

4. Cutouts in partitions for accessories can be pre-cut at factory if location and size of cutouts are specified and orders for both partitions and accessories are received together.

BARRIER-FREE WASHROOM GUIDELINES

It is critical to consult state and local jurisdictions and accessibility codes to confirm compliance of horizontal and vertical mounting locations of individual and combination accessories within toilet compartments, including toilet tissue dispensers, toilet seat cover dispensers, sanitary napkin disposals and grab bars.

DESIGNER'S NOTE

When combination units are mounted in an accessible toilet compartment through the shared toilet partition panel, the unit's location in the adjoining toilet compartment must permit the unit's complete operation, and allow for the unit's door to swing clear of the toilet when custodians service the unit.
